ATLASS INNOVATIONS LIMITED

Areas of Expertise

We deliver end-to-end solutions across multiple industries, with **Mining** at the heart of our operations:

Mining Engineering & Draughting Solutions – We provide comprehensive engineering and draughting services for construction, mechanical, and mining applications, delivering detailed drawings, shop drawings, and as-built documentation in line with industry standards and Transmission tower designs.

Our capabilities extend beyond standard scope to include the design and engineering of conveyor systems and telecommunication towers of various types, sizes, and heights. This includes full structural detailing and integration of safety features such as monkey ladders, ladder cages, platforms, and guide support systems.

We deliver practical, buildable solutions that prioritize accuracy, safety, and efficient project execution in demanding environments.
